

A Community-owned Energy Company: Its Role in Renewable Energy and As a Driving Force for Regional Development

Per Laurell

*CEO Gävle Energi, Sweden
E-mail: per.laurell@gavle.se*

Gävle Energi serves as the energy company for Gävle and the surrounding region by supplying a complete range of energy solutions to public and industrial enterprises, as well as private households. The objective is climate neutrality. In other words, renewable energy sources and services for energy efficiency are integral to the business. Close collaboration with the local university and industrial enterprises will be strengthened even further in the future.
